What would be the most common thing you would use a cost saving app for

47 responses

Let us know what would you like to see from an application that helps you save money.

17 responses

Monthly spending

Having ways in which you can gain money as well. For example you can have links to online surveys that give you 50p extra or something...

An easy way to add expenditure

Something that can analyse how I spend my money and then determine ways with me saving.

I would like to see a difference in money income for people to benefit themselves and others.

Something that doesn't require me to log into my banking apps

Easy load app

Helps save money

Comparing market prices both UK and international prices

Not sure

A way to save money

I would like to see compiling data, such as: racios, graphics, etc...

The cheapest price for the things I'm interested, the offers and discounts in the shops.

And a correct grammar. It's not a application, it's an application.

Does aN app which suggestS...
